Subject: Change of Ownership Announcement Letter

We wish to bring to your notice and announce that the Ownership of Allied Fire Protection Systems, Inc. located at 1885 Lyndon Blvd. Falconer, NY is being transferred to Jolean and James Swanson. The firm is currently owned by Charles Lynn, President and the change in the ownership will be effective beginning April 1st, 2023. The changing of the ownership of Allied Fire Protection Systems, Inc. is because Charles Lynn will be retiring as of April 1st 2023 as well (no joke!).

We intend to notify you, through this letter, that there will be no change in the management, policies or practices of the Company. The transition of the ownership and management of Allied Fire Protection Systems, Inc. has been in process since January 1, 2023 to ensure the day to day operations continue to run smoothly as Chuck winds down his career of over 43 years in the fire sprinkler industry. We want to make certain to our Contractors and Customers that going forward we will strive to sustain the reputation and good standing that Allied Fire Protection has managed to build for over the past 48 years.

Jolean and James will continue to do business competently as Jolean has been employed at Allied Fire since 1997 and currently holds the title of Corporate Secretary, Financial Controller, and Office Manager. Jolean will ensure the day to day operations of the business and financial stability of Allied Fire continuing as Chief Executive Officer. Jolean will also be working towards the goal of Allied Fire becoming a New York State Certified Woman Owned Business Enterprise. James, the past Vice President of Allied Fire, returned in January to work with Chuck and Jolean and assist with the transition of the business ownership and to assure that the standards and dependability of our work will continue as always. James has over thirty seven years of experience in nearly all aspects of the Fire Sprinkler Industry and will ensure that the quality and standards of the service Allied Fire is noted for will continue as Chief Operation Officer.

All Contractors and Customers receiving this letter have always been valued clients of Allied Fire Protection, and we appreciate you having trusted Allied to be your fire sprinkler contractor. Going forward, we trust that Allied Fire Protection will continue to be your dependable go to fire sprinkler contractor and we thank you for considering us on your present and upcoming projects.

Sincerely,

Charles Lynn, President (retired)

Jolean Swanson, Chief Executive Officer

James Swanson, Chief Operating Officer
